

Warm-Up

Write down what you believe each of these symbols means

$=$ reads 'is equal to'

\approx reads 'is approximately equal to'

$>$ reads 'is greater than'

$<$ reads 'is less than'

Insert the correct symbol for each of the following:

Use " $=$ " or " \approx "

$$375 + 253 \square 630$$

$$90 \div 15 \square 6$$

Use " $>$ " or " $<$ "

$$1200 \times 3 \square 3500$$

$$54 + 86 \square 130$$

Doing the Two-Step

In some problems we cannot jump straight to the solution, an intermediate calculation can be necessary

Let's try Example 10, Page 32

Exercise 2C

Complete questions 1 to 13

Exit Pass

Write down the six steps of problem solving
