

# WarmUp

Find the area of  
the unshaded  
region

# Composite Shapes

We can combine the formulas we know for use on countless composite shapes.

The word composite is used because the shape is composed of (made of) two or more other shapes.

## **Work To Do**

Complete Exercise 9E, Pages 192 and 193

Complete Investigation 3, Pages 193 and 194

Complete Investigation 4, Pages 194 and 195
